

## Rainstick

### Materials

- 1 thick cardboard tube approximately 3 feet long with a 3-4 inch diameter.
- 150-200 1.5 inch nails
- Handful unpopped popcorn
- Spray paint
- Acrylic paints
- Small paintbrush
- Hammer
- Newspaper strips.
- Paper mache paste.

- 1 Use a pencil to draw a simple line design on the tube.
2. Use the hammer to pound in 150-200 nails along the pencil lines you've drawn

3. Spray paint or use acrylic paints and brush to cover the entire tube with a base color
4. Use the pattern of nails as your guide to paint a decorative design on the outside of the tube.
5. Use newspaper strips and paper mache paste to seal up one end of the tube, let dry.
6. Fill the tube with one handful of unpopped popcorn. Seal the top end of the tube with paper mache. Let dry.
7. Paint over the paper mache to match the rest of the tube design.  
Done!
